REFERRAL DISCOUNT PROGRAM

As we continue to grow, we have realized that the greatest source of new clients comes from the referrals of our present clientele. The greatest compliment that one of our clients can give us is to recommend our services to one (or more!) of their family, friends, colleagues, or associates.

We greatly value the confidence that our clients have in us! In gratitude for this, we gladly provide discounts for client referrals. For each new client that receives our services and presents a completed referral coupon below, the referring client will be given a service discount on their next session or session package purchase. (Maximum 10% service discount per session/package.)

We know that if we continue to excel in the levels of service and care that we provide our clients, our practice will continue to thrive, and we want to share that success with you!
